WORK EXPERIENCE

Wellington Management Company Boston, MA
Tax Services Co-op January 2025 - June 2025

. Filed tax returns for 15+ states monthly; processed payments and mailed checks to help ensure timely and accurate filings across the firm.
. Prepared and reviewed 500+ IRS forms (e.g., 1042-S, W-9, 1099, 8858), ensuring accuracy for both U.S. and international tax compliance.
. Applied Excel-based solutions to every project to streamline processes, automate tasks, and ensure long-term scalability of tax operations.
. Drafted 20+ detailed project instructions (each ~5 pages) with step-by-step guidance and visuals, significantly improving team efficiency, documentation consistency, and onboarding for future co-ops and staff.
. Managed and organized 100+ physical and electronic mail items weekly, filtering, categorizing, and routing critical information to support timely decision-making and record accuracy.

American Tower Corporation Boston, MA
Tax Co-op January 2024 - June 2024

. Prepared monthly cash tax forms for 20+ international legal entities, supporting accurate and timely global tax compliance.
. Filed 200+ U.S. tax forms (5471, 8858, 926, 1040, 1041, 1120) across various entity structures, ensuring adherence to IRS regulations.
. Completed 50+ Texas Franchise Tax Public Information Reports, maintaining proper disclosures and state-level compliance.
. Reviewed and audited 250+ draft and final tax returns, identifying discrepancies and ensuring accuracy under U.S. federal and state laws.
. Utilized tax software including Thomson Reuters Checkpoint, and IBM Cognos TM1 to streamline filings and improve data accuracy.

PROJECTS & RESEARCH EXPERIENCE

Quantitative Investment Strategy Development Boston, MA
Computational Methods and Applications in Finance September 2024 – December 2024

. Built multi-factor equity strategy using over 3,000 trading days of data spanning from 2010 to 2023.
. Processed 2.5 million+ stock-date return records to construct five factor-based portfolios and benchmark strategies.
. Designed and tested composite trading strategy in Python by combining Value, Momentum, Size, Beta, and Reversal factors; performed time-series simulations and visualized key performance metrics.

Portfolio Analytics, Benchmarking & Factor Modeling Project Boston, MA
Portfolio Management September 2025 – December 2025

. Built an Excel portfolio research project using monthly data (2015–2024), covering portfolio construction, benchmark/index engineering (equal/price/value weighted), dividend reinvestment, and corporate-action handling (3:1 stock split; constituent deletion).
. Built a factor-based statistical arbitrage portfolio using economic factor models; optimized 6-stock long/short weights with Excel Solver and evaluated results via key outputs (Alpha, Beta, R^2).
. Developed a characteristics-based fundamental factor model by screening 20+ candidate factors and selecting 4 to improve data–signal fit; validated forecasting skill with an out-of-sample Information Coefficient of 0.476. Overall project grades ranked #1 in class.

Financial Accounting Report Project Boston, MA
Financial Accounting September 2022 – December 2022

. Executed project related to Exxon Mobil and Chevron companies' annual reports between 2020 and 2021.
. Analyzed two annual 10-K reports, then summarized important information and calculated important ratios.
. Wrote a 9-page analysis report to compare the financial performance of the two companies in different years, analyze the reason of performance, and give some suggestions about companies' strategies.

Strategy Analysis Report Project Boston, MA
Strategy in Action June 2025 – August 2025

. Delivered a 100+ pages PPT strategy report for a boutique GenAI consulting firm, partnering closely with the client to meet objectives.
. Applied course frameworks to analyze external environment, industry, resources, capabilities, competitive advantages, and positioning.
. Developed strategy options, option-evaluation frameworks, and recommendations; produced an implementation roadmap and expected outcome, initiatives with milestones timeline; translated analysis into actionable, value-creating plans.
